DEPARTMENT OF NATURAL RESOURCES

www.dnr.state.mo.us

DEC 06 2002

Dear Sir/Madam:

Earlier this year your company indicated a desire to use the Missouri Department of Natural Resources' new online emission inventory system. The Air Pollution Control Program is happy to announce that the Missouri Emissions Inventory System (MoEIS) for on-line data entry will be available for entering calendar year 2002 emissions data for anyone with Internet access after December 28, 2002. Users will be able to enter emissions inventory data interactively on the MoEIS Internet site. The Air Pollution Control Program will distribute user names and passwords at the upcoming training.

Workshops will begin in early January; the schedule of dates and locations is being developed based on responses to the survey mailed earlier this year to facilities. They will be offered according to interest and need at Department of Natural Resources offices around the state.

Workshop locations:

St. Louis Urban Outreach Office, 4030 Chouteau, St. Louis
Jefferson City Regional Office, 210 Hoover Road, Jefferson City
Kansas City Regional Office, 500 NE Colbern Road, Lees Summit (Kansas City)
Northeast Regional Office, 1709 Prospect Drive, Macon
Southwest Regional Office, 2040 W. Woodland, Springfield
Southeast Regional Office, 2155 N. Westwood Blvd., Poplar Bluff
Department of Natural Resources Conference Center, 1738 E. Elm St., Jefferson City

The Environmental Assistance Office (formerly the Technical Assistance Program) in cooperation with the Air Pollution Control Program will provide training. The training will begin at 10 am and conclude no later than 3 pm. The Environmental Assistance Office is working on an agenda for the workshop. Participants will also receive an interactive training CD-ROM and there will be a website and phone number for help when entering data. If you are interested in receiving this CD beforehand, please contact the Air Pollution Control Program at our toll-free number (866-MoEIS4U). To indicate that your representative(s) will attend a workshop and the preferred location(s) please contact Omer Roberts, Environmental Assistance Office at 800-361-4827.

To check for continued project MoEIS updates refer to the following Internet site:

Thank you for your interest.

Sincerely,

AIR POLLUTION CONTROL PROGRAM

Leanne J. Tippet
Interim Director
